The Search for Satisfaction

1:12 to 2:26

The opening to **Ecclesiastes** has set the tone of the book by its motto-theme: **Pointless! Pointless! - says the Teacher - everything is pointless** (to see link click [Cd - The Failure of Earthly Things](#)), and by its picture of a world endlessly busy and hopelessly frustrating. Now the focus sharpens. We turn from analogies and impressions to what we can know directly from experience. We are to scan the great spread of human pursuits, to ask whether anything on earth can be found which has any lasting value. **Solomon** gets across to us the urgency of the search: we find ourselves involved in it. Along with **the king**, our search will be no restricted or tentative affair, but royal, exploring of whatever the world can offer to a man of unlimited wisdom and wealth.²⁴² After a brief reflection on **his** search, **Solomon** narrates how **he** looked for meaning in pleasure, wisdom, and folly, as well as in **his** work. Nonetheless, the specter of death hangs over **his** head, making **his** achievements and successes meaningless. At the end, **he** concludes that if this life offers anything at all, it is in the occasional moments of joy in the simple pleasures of life.²⁴³
